Dan Cupid came along one day
And shot an arrow through
A tender maiden's heart, whose name
Was Angeline McGoo.

And Angeline was smitten with
A youth of poor estate,
Who, notwithstanding she was rich,
Did not reciprocate.

She felt the arrow in her heart,
And cried, "Why is this so?
What good's an arrow to me if
I do not have a beau?"

If you have an item of news, please

moved to Cincinnati.

dent of Maysville, had his left shoulder broken.

VERY MUCH LOST!

Mt. Olivet Boy Loses Job, Money,
Brother, Boarding-House!

Harvey Clark, a sixteen-year-old boy from
Mt. Olivet, who Wednesday had both a job and a
home, now cannot find either, and is held at
Cincinnati Police Headquarters for safe keeping.

It is one of the most unusual cases of "lost"
the police have encountered. The lad, who
seems ordinarily bright, was found by Patrolman
Kruse wandering about the Grand Central
Depot and sent him in. The boy said to Lieu-
tenant Watson:

"I came to Cincinnati Tuesday and got a
room and paid for it for a week. Then I got
a job working in a machine factory at \$3.50 a
week. When time came to quit work I left,
and then I couldn't find my room. I started
back to find where I worked, and I couldn't
find that either. My brother is here, too. I
was rooming with him, and he has my money."

Third street, Newport, by slashing himself
across the throat with a razor.

Three or four weeks ago he went on a spree
and had been drinking heavily ever since.

For several days he had threatened to end
his life, and Wednesday undertook to carry
his threat into execution.

He procured his razor, and, informing his
wife of what he intended to do, chased her
out of the room, closed the door, and went to
work on himself.

Before anyone could be summoned Hise
made three severe gashes on his throat, ex-
posing the windpipe.

His injuries are serious but he will recover.

Hise is formerly of this city, for years be-
ing employed at W. B. Mathews & Co.'s saw-
mill.

It Is a Wonderful Array of Spring Garments We Place Before You This Season.

Most of the productions of Rochester's best manufacturers. Every line of them confined to us. The quantities we yearly handle of these goods enable us to buy them at prices that afford us to sell them at perhaps a shade cheaper than you have to pay for clothing that does not compare with ours. You owe it to yourself to look at our Clothing before you buy your spring outfit.

Our Shirt Stock will be found a revelation. Look in our West window. Said a gentleman a day or two since who bought them with privilege of returning them if they did not fit, "Mr. Hechinger, I usually have my shirts made to order, but never was as well fitted as in these." We have such confidence in our Shirts that we sell them on approval. If fit unsatisfactory return them and get your money back.

YOU SOON WILL DISCARD
YOUR WINTER SHOES.

Try a pair of our new Douglas or Hanan Shoes. Our stock is now at its best in both lines. You know we guarantee every pair.

Have you seen Stetson's newest designs in Spring Hats? If you have not come in and let us show them to you. They range from \$3 to \$5.

Let us show you the very newest fads in Fancy Vests. They are going to be very popular. Your wardrobe is not complete without one.

LAST Friday, which was the 13th, thirteen divorces were granted by the Court at English, Ind. And yet there are people who think "Friday" and "thirteen" are unlucky.

AFTER forty years experience with a Prohibitory Liquor Law, New Hampshire is preparing to do away with the fraud. The state will return to the license and local option system.

A YOUNG woman in Louisville has just paid \$10 fine to Uncle Sam because he caught her putting a letter in a package on which she had marked "No writing," and on which she paid postage as merchandise. So it cost her \$10 to save 2 cents. Some people do want to get rich awful quick.

THE Portsmouth Blade says that ALEXANDER LAWSON, the young man killed on the C. and O. near Vanceburg, was identified by the pair of Portsmouth-made shoes which he wore; and that paper also recalls the fact that poor PEARL BRYAN, so brutally murdered by SCOTT JACKSON and ALONZO WALLING, was identified in the same way. This may or may not be a good send-off for the Portsmouth product; but Portsmouth shoes are all right all the same.

Now that the question of Governor Beckham's eligibility is to be submitted to the Courts, we want to do a little prophesying. He will be found eligible, not according to the spirit of the law, but according to its letter. Besides, the best Democratic machine for years is getting in good working order, and every vote is needed. And, then, both Breckinridge and Hendrick have agreed to support Beckham if nominated, eligible or ineligible, legal or illegal, right or wrong. They have given away their own cases.

ALL WORN OUT.

Mrs. Elsa Faison of No. 43 Main street, Oneonta, N. Y., says: "Last summer I was in bad shape—all run down in health—no appetite and poor digestion—I did not sleep well and felt tired and languid all day. I was told to go to a doctor and was poorly treated all summer with no improvement. Then Dr. A. W. Chase's Nerve Pills recommended. I took them and was soon well and they thoroughly cured me—no more dullness or headaches—sleep sound and refreshing—appetite good—digestion perfect—blood rich—circulation good—color excellent, in fact vigorous and strong in every way. I can't speak too highly of the medicine, as it certainly is a grand one."

WEAK AND NERVOUS.

Mr. John Bailey of Jackson street, Penn Yan, N. Y., says: "I was told that Dr. A. W. Chase's Nerve Pills were a great nerve medicine, and as I needed one badly, I got a box. My nerves were very weak. I lacked ambition and strength and my heart action was very weak. I used the Pills as directed and they made my nerves quiet and steady, the heart action strong and regular and the appetite good, my sleep became restful and I feel altogether like another person. I think as a remedy in female complaints as well they are grand, easing headaches and heavy, dragging feeling rapidly and easily. This I know from experience, and I am glad to recommend them."

WILLIAM NELSON CROMWELL, a New York lawyer, goes Captain C. C. CALHOUN one better. If Uncle Sam's deal goes through, and he pays \$40,000,000 for the Panama Canal ditch across the Isthmus, Mr. CROMWELL's fee will be 5 per cent. of the whole, or the matter of \$2,000,000. This makes Captain CALHOUN's fee of \$71,000 look like thirty cents.

THE good people of Carter county have company. Arizona has just exchanged 3 per cent. fifty-year refunding bonds in satisfaction for bonds issued by Pima county twenty years ago for the construction of a railroad that was never built. The old bonds bore 7 per cent. interest, and the new bond issue meets the principal of \$150,000 and the straight interest only. Mason county and the city of Maysville had the same bitter experience in the early 50's, when they issued \$300,000 in bonds for building the Maysville and Lexington and the Maysville and Big Sandy Railroads, both of which enterprises died-a-borning'; but the people finally paid the bonds, with enough interest and costs to more than double the principal.

Oliver

Gave to the world the Chilled Plow. The magical word Oliver is a guarantee of quality.

Mr. Oliver still controls the chilling process that has made the Oliver Plows so famous. Every genuine Oliver Plow Point or other repair has Mr. Oliver's name stamped upon it, and this name certifies that that piece is double chilled and will scour free and last almost twice as long as a part chilled in the imitation way. Notice one peculiarity of an Oliver Point also includes the Cutter. When you put on an Oliver Point you have an entire new cutting surface; you virtually have a new plow. Upon other plows the point and cutter are separate, and you have to buy two parts at double the expense to secure a new cutting surface. Remember this, please: Oliver parts all fit nicely. An Oliver Point fits just as nice as the first one that was put on the plow. Oliver Mouldboards, Standards, Landsides all fit; your Oliver Plow works just as nicely when it is ten years old as it did the first year. We ask you to candidly say if this is the case with any other plow on earth. When you spend your money get all you can for it. The most valuable gets in anything is an Oliver Plow. Oliver Plows are absolutely guaranteed.

Charles D. Walcott, Director of the United States Geological Survey, says that the anthracite coal fields of this country will last for more than 200 years. It has been estimated that the original contents of the Pennsylvania anthracite mines amounted to 19,507,872,325 tons. In the past 33 years 1,225,581,269 tons have been mined. The supply of bituminous coal is almost limitless. The area of the American fields is estimated at 279,543 square miles, as compared with 484 square miles of anthracite coal.

To force the issue on the Blue Laws, the prominent and reasonable members of the Sabbath Observance Association have sworn out warrants for the arrest of several publishers of Philadelphia morning newspapers and the executive officers of a news company, a locomotive works and an ice cream company. The newspapers are being prosecuted for accepting advertisements on Sunday, selling wares and doing a manner of labor prohibited by the act of 1794, which also prohibits a man from kissing his wife.

INVESTIGATING COMMITTEE.

Visitors to Newport, Covington and Cincinnati Have Returned.

Mayor W. E. Stalcup, Messrs. John T. Short and John Eitel and Civil Engineer W. C. Peltzham, after spending a couple of days investigating the systems of streets in Newport, Covington and Cincinnati, returned last evening. They made a thorough examination of the several kinds of highways, secured plans and specifications and cost of construction from the engineers of the above cities, and the consensus of opinion of the committee seems to be that brick streets, properly constructed, are what Maysville needs and must have. It is probable a meeting of the General Committee will be held Monday night in order to hear the report of the Visiting Committee.

MORE SMALLPOX!

Several Cases Have Developed in Out-of-the-Way Places.

Now, don't get scared! Warm weather is near at hand, and it's a deadly foe to smallpox.

Last evening Mr. Reuben Duncan of Maysville, who has been staying at the St. Charles Hotel in Front street for some days, developed a mild case of the disease.

Of course there was a regular obsquatulation of the regular boarders.

Mr. L. W. Robertson, one of the Trustees of the Cooper Estate, placed Colonel William Willocks in charge of the building, with strict orders to keep one hundred yards away from him during his Curatorship.

Officer Bob Thompson is now the active landlord, clerk, steward, cook, chambermaid and bellboy—being in fact the "whole push," and experiencing very little bother from persons asking what time the 3:35 train goes out or the price of oleomargarine in Oshkosh.

In addition to the Duncan case, there are four or five cases near the extreme end of East Fourth street—far removed from the business district; and with the disease in both these out-of-the-way places, there's not the slightest risk to those who visit the business part of the city.

Colonel Henry S. Cohn, one of Louisville's well known citizens, died Wednesday evening.

So far there have been eight additions by letter and by confession during the meeting now in progress at the Christian Church.

There was a heavy drift flowing in the river at Cincinnati all day Wednesday. This condition is accounted for by the fact that all the coal harbors above the city have been cleaned of the drift, which was carried in front of them by the rise. Some of the drift was in patches that were nearly an acre in area.
